HEADS UP

Gardening in Arizona can be tough on the head. The Alchemi Sun Hat keeps you cool, calm and protected by reflecting up to 80 percent of the sun's heat and blocking 99.8 percent of skin-damaging UV rays. Using the same radiant barrier technology that protects astronauts from extreme temperatures, the hat is lightweight and breathable and features a moisture-wicking headband to draw perspiration away from the skin. \$35 (alchemilabs.com)

PUSH-UP POSEYS

Variables in modern agriculture practices and increased pesticide use have put bees, butterflies and hummingbirds in peril. The Pollinator Push Garden includes curated wildflower seeds, grow medium and planting instructions for a 1-square-foot patch of paradise for these essential members of our planet. Simply pop the top and push the contents into the soil. Ten percent of each sale will be donated to the Pollinator Partnership, a non-profit 501(c)(3) organization dedicated to the protection and promotion of pollinators and their ecosystems. \$18/set of three.
